AMINO ACIDS

GUARANTEED CONTENTS

Free amino acids	40.0	% (w/w)
Total nitrogen (N)	5.0	% (w/w)

Physical state: Liquid fertilizer.

pH = 6.8

Density = 1.2 kg/L

Net content: 1 – 5 – 20 L

A class: Heavy metal content lower than the authorized limits for this classification.

A class concentration limits	
Heavy metal	mg/kg
Cadmium	0,7
Copper	70
Nickel	25
Lead	45
Zinc	200
Mercury	0,4
Chrome (total)	70
Chrome (VI)	0

DESCRIPTION

Its high content of L-amino acids, all of them of plant origin and obtained through bacterial fermentation, gives the plant better vigor along the vegetative cycle.

It also has, among others, the following functions:

- Regulates plant growth and fruit ripening returning vigor to the plant.
- Increases the concentration of chlorophyll.
- Extends the crop cycle.
- Improve the effect of pesticides that are mixed together.
- Improves pollination and germination.
- Increases the size, weight and hastens maturity of the fruit.

In short, it stimulates the plant metabolism and improves the general condition of the crop.

The L-amino acid composition helps by assisting the plant in every one of its vital functions.

DOSES

FOLIAR APPLICATION:

General dose: Dilute dose of 250-300 mL/100 L applied at the following times:

- Vegetables: Make 2-4 applications along the cycle.
- Cereals: At the beginning of tillering and during blooming.
- Other extensive and industry: In pre-bloom.
- Fruit trees, vines and olive trees: In bloom and during fruit development. Do not apply in plum trees.

We recommend applying it during bloom, fruit setting, bulb or tuber formation, etc., as well as before and after stress from: drought, cold, heat, phytotoxicity, disease, etc.

INCOMPATIBILITIES

The product can be mixed with most of the usual products, except with oils. Caution in the mixtures with products containing copper and sulfur, because it may enhance their effect in excess. Anyway, a compatibility trial is recommended.

WARNINGS

Do not swallow. Keep out of the reach of children. Rinse skin after use. Avoid contact with skin and eyes. Do not smoke, eat and drink during its handling. Shake before use. Store at temperatures between 5° and 30 °C.
